Github: https://github.com/sahil-malik04
Portfolio: https://sm-portfolio-livid.vercel.app/

Engineer with **3.7+ years of experience** building web and mobile applications. Focused on understanding problems deeply, thinking in systems, and designing scalable and reliable solutions that deliver real value.

Experience

Xpression 04/2025 - Present
SDE - II
• Independently design and develop scalable systems, ensuring performance and reliability.
• Led development of projects like LaFetch (e-commerce) and the company's core platform AlgorithmX, from architecture to deployment.
• Manage and mentor the development team, ensuring code quality and timely delivery.
• Responsible for end-to-end system deployment, including infrastructure setup and release management.

DuckTale IT Services 12/2022 – 11/2024
Lead Software Developer
• Led a small team of **5 people** (developers + QA) and made sure the work moved smoothly.
• Worked closely with the business team to plan and **design software ideas** that could be shown to clients.
• Delivered 4+ projects end-to-end across fintech, healthcare, customer autotune/IVR bypass, and video-conferencing domains.
• Took care of assigning tickets, managing the team, reviewing PRs, and handling deployments.
• Reduced **front-end rendering issues by 35%** by optimizing state management and component structures.

TechCompiler Data Systems 07/2022 - 11/2022
Software Engineer
• Supported full-stack development to enhance both frontend and backend systems.
• Worked on complex projects like Wireless Guardian, integrating data from nearby

Projects

LaFetch

- Designed and built the entire backend system from scratch supporting **28k+** active users, ensuring scalability, performance, and security.
- Developed scalable APIs supporting mobile and web application, along with the admin and vendor panel.
- Created an intuitive admin panel and a dedicated vendor panel for efficient platform management and operations.
- Implemented key integrations such as Amazon SES for emails, BulkSMS for messaging, Shiprocket for order management, and Razorpay for payments.

Web URL:- *https://la-fetch.com/*, *Github*:- https://github.com/sahil-malik04/laFetch-backend

Invozio

- Successfully led the development of a Sweden-based fintech project, resulting in over **3.5k+** active users (218.18% growth).
- Built and optimized major front-end features, including note-taking, customer approval workflows, and bilingual support (English and Swedish).
- Enhanced the user interface, performed SEO optimizations, and improved platform **performance**, increasing the **Lighthouse score** from 35 to 84.

Web URL:- https://invozio.com/

Medical Healers

- Developed the backend system from the ground up using Node.js and PostgreSQL.
- Created numerous RESTful APIs, ensuring data security throughout the integration process.
- Solved challenges related to complex database relationships and table joins.

Skills & Abilities

Technical:
C++, Data Structures, System Design, JavaScript, React.js, Next.js, Vue Js, Redux, TypeScript, React Native, CI/CD Pipelines, HTML, CSS, Tailwind CSS, REST, GraphQL, MongoDB, Express.js, Node.js, MySQL, PostgreSQL

Cloud & Tools:
AWS, Git, Jira, Trello, Twilio

Interpersonal:
Public Speaking, Collaboration

Education

Postgraduate (PG):
Masters in Computer Application (2023-2025)
Chandigarh University (Pursuing)

Undergraduate (UG):
Bachelors in Computer Application (2018-2021)
IK Gujral Punjab Technical University, CGC Landran, Mohali
CGPA: 7.75

Certifications

- Hackathon Participant (National-level) - 2019 (Sponsored by Code::Blocks)
- C, C++ Test by Spoken Tutorial, IIT Bombay
- Fundamentals of Digital Marketing - 04/2020 (By Google)
- Certificate of Appreciation - Volunteer (Parivartan Fest)

Achievements

Excellence Performance & **Quality Work Award** from DuckTale IT Services.
